Serial No.09/966,893AMENDMENTS TO THE CLAIMS

MPEP clp 7

intended use

1-20 (cancelled)

21. (new) A pharmaceutical composition useful for treating Galactosialidosis comprising protective protein/cathepsin A (PPCA) and a pharmaceutically acceptable carrier, wherein said PPCA is produced in an insect cell culture and has a glycosylation pattern that comprises exposed mannose residues.
22. (new) The composition of claim 21 wherein said insect cell culture comprises cells derived from the species selected from the group consisting of *Spodoptera frugiperda* and *Tricoplusia ni*.
23. (new) The composition of claim 22 wherein said cells are *Spodoptera frugiperda* Sf9 cells.
24. (new) The composition of claim 21 wherein said PPCA is produced in the insect cell culture using a baculovirus expression system.
